Industry: [Entertainment](#)

DALLAS, Texas-October 19, 2009- Mixposure today announced that they are teaming up with Stratage` Guitars, Cakewalk by Roland and Sam Ash Music for the Ultimate Gear Giveaway. The [online music directory](#) and it's sponsors are running a song contest through December 7th. The \$5000 prize value giveaway features a hand-crafted, custom shop Stratage` guitar, recording software from Cakewalk and various other items.

Musicians registered at MIXposure® are putting their best foot forward, by entering their chosen songs in a "Battle of the Bands"-type competition. Points will be awarded by listener voting, and the top five bands with the most votes advance to the final selection process. The finals will be judged by an independent panel of professionals in the [music industry](#).

Membership for artists and listeners is free, requiring only a brief registration. Songs can be uploaded to the artist page provided, and artists can make use of space and tools provided by the site to promote their song and encourage listener participation. Details for the contest are available by visiting [www.mixposure.com](http://www.mixposure.com), and viewing the contest promotion information on the main artist (portal) page. Visiting the site and listening to the music does not require registration, however contest entry, free music downloads and voting do require membership.

Mixposure.com is an online music directory, promoting independent artists and their music, providing entertaining and interactive internet radio programming seven days a week, and free [music downloads](#) for the artist and listener membership. Forums are also provided for technical support and help with recording and mixing.
